

Harsh Pandey

Full-Stack Product Engineer

Pune, India | coding.harshp@gmail.com | harshpandey.com | github.com/harshpandey002 | linkedin.com/in/harshpandey002

SUMMARY

Full-stack product engineer with 5+ years of experience building polished web and mobile products across consumer apps, event platforms, trading tools, Web3 interfaces, dashboards, and developer utilities. Strongest at the intersection of product UI and practical systems: React, Next.js, TypeScript, React Native/Expo, realtime data, local-first storage, API design, Prisma-backed backends, and stateful workflows that need to stay understandable under pressure.

EXPERIENCE

JuiceXP (formerly Juice Labs) - Full-Stack Developer

Jan 2024 - Present

- Worked across a production fan-engagement and rewards platform for live events, including quests, prizes, affiliate codes, workspace/market flows, venue show-board UX, scheduled notifications, API payloads, and redemption/refund paths.
- Contributed inside a TypeScript monorepo spanning Next.js server and dashboard apps, mobile/Capacitor surfaces, super-admin tooling, shared core/react packages, CLI utilities, API docs, and product docs.
- Improved reliability around Prisma transactions, tests, Sentry-backed observability, and AWS-integrated infrastructure.

AppSecure Security - Front-End Developer

Jan 2022 - Aug 2022

- Designed and built the secure frontend for PentaBug, a bug bounty platform used by security researchers and organizations, using Next.js, React, and Auth0.
- Helped onboard 200+ hackers and 5 companies in the first month after launch.

Freelance - Full-Stack Developer

Sep 2022 - Dec 2023

- Built client products including BlockTrain, EduCompanion, and Beyond Pinks across education, mentoring, blockchain learning, and product-content workflows.
- Built BlockTrain as a full-stack blockchain education platform with courses, articles, tutorials, and project guides; reached 125k+ visitors in its first 2 months.

SELECTED PROJECTS

Pouch - Expense Tracker

Expo, React Native, TypeScript, SQLite, Drizzle, RevenueCat, Zustand

- Shipped an iOS/Android-first personal finance app with categories, groups, budgets, calendar views, insights, CSV export, onboarding, and trial/paywall flows.
- Built local-first data flows with Expo Router, NativeWind, SQLite + Drizzle, Reanimated/Gesture Handler, SVG charts, and subscription plumbing.

Roost

Expo, React Native, Google Places/Maps, Express, Prisma, PostgreSQL

- Shipped an iOS social food-discovery app for nearby/trending restaurants, wishlists, reviews, photo uploads, profiles, and follows.
- Built location/reverse-geocoding flows, SecureStore auth, push notifications, UploadThing uploads, Zustand state, and a bundled Express + Prisma backend.

Algo Trading

Private project | Next.js, TypeScript, Kite Connect, WebSockets, SSE, Sentry

- Built a single-tenant options execution desk with live ticks, candle sync, option-chain selection, risk-based sizing, armed entries, stop-loss, and square-off flows.
- Implemented frozen anchor candles, synthetic stop-limit triggers, durable active-trade state, order reconciliation, SSE fan-out, logging, and deployment safeguards.

LockWars

Expo, React Native, TypeScript, Firebase, Socket.io, Zustand, Jotai

- Built a fantasy sports mobile app with auth, lobbies, lineups, player cards, matchup rooms, promotions, wallets, and realtime chat.

SKILLS

Frontend: React, Next.js, React Native, Expo, TypeScript, Redux, Tailwind CSS, NativeWind, shadcn/ui, Radix UI

Backend/Data: Node.js, Express, Prisma, Drizzle, PostgreSQL, SQLite, MongoDB, Firebase, REST APIs, WebSockets, SSE

Systems: auth, payments/subscriptions, local-first storage, realtime state, dashboards, exports, push notifications, file uploads

Web3/Trading: Solidity, Hardhat, ethers.js, thirdweb, wagmi, viem, Kite Connect, wallet flows, contract reads/writes

Tools: Git, GitHub, Vercel, Sentry, AWS, Figma

EDUCATION

B.Tech, Computer Science and Engineering - Sikkim Manipal Institute of Technology - 2018 - 2022, 8.28 CGPA

TSBSE - Narayana Junior College, Hyderabad - 2016 - 2018, 91.3%
